

Says

What have we heard them say?  
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?  
What other thoughts might influence their behavior?

This Global Air Transportation Network dataset is a comprehensive collection of information on airports, airlines and their routes.

It contains information such as names, cities, countries, codes (IATA and ICAO) longitudes.

Latitudes and altitudes of airports across the world with detailed time zone and daylight saving time data.

This includes information about airlines including their IDs, name aliases.

IATA and ICAO codes, callsigns country of origin and active/inactive status.

It also covers route details such as airline sources to destination airports.

Unlocking insights into the global air transportation network with tableau

Story using Tableau and analyzing Global Air Transportation

essential details like codeshare stakeholder if any stops required during this journey

along with the type of aircraft being used for that particular journey.

This dataset has been compiled through meticulous labor by researchers all over the world

Give you a comprehensive detail into air transportation networks from around the globe.

A critical infrastructure with high impact on mobility, trade and economy.

Examples are the air transport systems of a country or a country's own air transport company.

Does

What behavior have we observed?  
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?  
What other feelings might influence their behavior?
